<html lang="ar" dir="rtl" class="scroll-smooth">
  <head>
    <!-- Chosen Palette: Refined Onyx & Gold -->
    <!-- Application Structure Plan: The application is structured as a top-down narrative
    journey through the candidate's professional profile. It begins with an impactful, full-screen
    hero section to establish a strong first impression. Key achievements are presented as
    animated stat cards that appear on scroll. The core content—experience, skills, projects, and
    certifications—is organized into distinct, visually separated sections with clear headings for
    effortless scanning. This single-page, linear flow is intuitive and guides the user logically
    through the candidate's qualifications, moving from a high-level summary to in-depth,
    interactive details. -->
    <!-- Visualization & Content Choices:
    - Key Stats: Inform -> Animated Stat Cards (HTML/CSS/JS) -> Provide a quick, high-
    impact summary of career highlights with on-scroll animations for engagement.
    - Experience: Organize -> Vertical Timeline with refined styling -> Organizes career
    progression in a scannable and aesthetically pleasing format.
    - Core Competencies: Compare -> Horizontal Bar Chart (Chart.js/Canvas) -> Visually
    ranks skills and proficiency, styled for a dark theme for high readability.
    - Target Market: Show Proportion -> Doughnut Chart (Chart.js/Canvas) -> Clearly
    visualizes geographical preferences with colors harmonized with the dark theme.
    - Projects: Inform -> Hero Project Card with metrics (HTML/CSS) -> Highlights the most
    significant project with key metrics for a quick, data-driven understanding of impact.
    -->
